Publication April 2022

Lucas has returned home, 12 years after disappearing. Silent. Haunted. And still 11 years old.

When a missing child, Lucas Jones, reappears on his Uncle's doorstep in his hometown of Medford after an absence of 12 years, the brief moment of joy is clouded by mystery. Where has he been? Where is his father who disappeared at the same time? And how is it possible that Lucas is still 11 years old?

As Lucas is uncommunicative, it is left to Detective Sergeant David King and child psychologist Jean Symonds to attempt to find some answers from the few belongings Lucas returned with; little more than four Polaroids and a personal journal which speaks of his time in a place called 'The Junction'.

The story unravels through interviews, medical and police reports, and ultimately, through visits to The Junction via the pages of Lucas' diary, jumping back and forth in time, revealing pieces of the puzzle in a mystery that keeps the reader guessing right up until the end.

Norm Konyu is a professional animator who has worked for the BBC, Dreamworks, Nickelodeon, Cartoon Network and others. A Canadian, he currently resides in the UK. The Junction is his first foray into the world of comics since being a teenager.

Material available April 2022

An all-new, fully-authorised graphic novel adaptation of the cult 1976 movie starring David Bowie and directed by Nicholas Roeg.

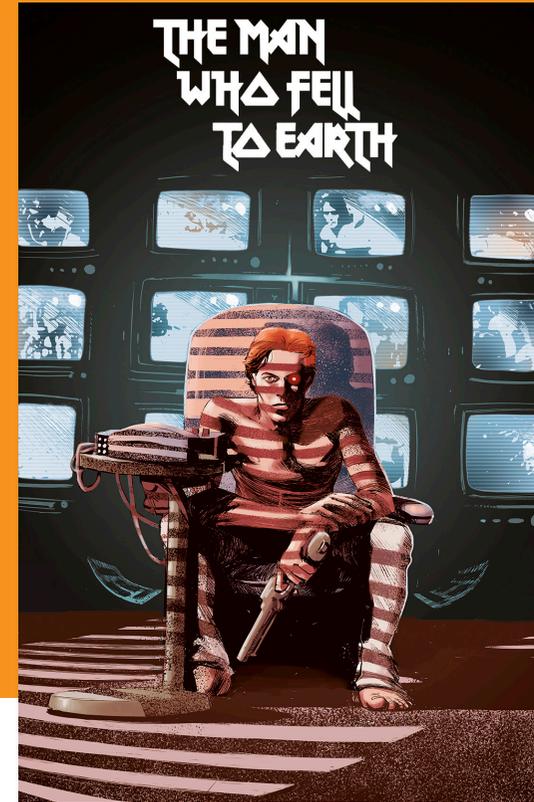

The film, based on the classic science fiction novel by Walter Tevis (*The Queen's Gambit, The Hustler*) sees an extra-terrestrial called Thomas Jerome Newton (played in the movie by David Bowie) land on Earth in search of water to save his dying home planet. Using his advanced scientific knowledge, Thomas becomes incredibly rich thanks to dozens of inventions his company releases. He uses his wealth to search for a way to transport water back to his home planet, but as his wealth and his fame grows so does his profile, and it isn't long before Thomas becomes a target of interest to the U.S. Government who begin to investigate him.

'There are ideas in the film, about climate crises and corporate greed, that are more relevant now than they were when Nicolas Roeg set out to make it.... I think it's high time to look at the world through Thomas Newton's mismatched eyes all over again. Perhaps he'll see something we've been missing.' *Dan Watters*
